The sculptural form of Chijioke Aguh's 'voluptuous bench' combines a strong visual impact with practicality and comfort. The aeropoly frame is upholstered in cmhr foams and supported on boomerang-shaped steel feet finished in a mid-grey epc. A wide choice of fabrics and hides is available.

Born in 1976, Chijioke Aguh studied furniture and product design at the Royal College of Art in London. Since graduating he has worked in a variety of disciplines including fashion, home accessories and furniture.
